— GETTING STARTED

Welcome to Your Reset

A gentle introduction to inflammation, gut health, and how this plan works — no science degree required.

What Is Inflammation, Really?

Inflammation is your body's natural response to stress, injury, or irritation — it's not automatically "bad." A little bit is normal and even helpful. But when it becomes constant, often from things like ultra-processed foods, added sugar, poor sleep, or chronic stress, it can leave you feeling tired, puffy, foggy, or just "off." The good news: everyday food choices are one of the simplest ways to support your body back toward balance.

Food, Your Gut & Balanced Eating

Your gut is home to trillions of bacteria that influence digestion, energy, mood, and even how calm or reactive your body feels. Colorful vegetables, fiber-rich plants, healthy fats, and gentle spices like turmeric and ginger feed the "good" bacteria and help keep things balanced. Meals built around whole foods, protein, fiber, and healthy fats also help keep your blood sugar steadier — which means fewer energy crashes and cravings.

Fiber & Plants

Feed beneficial gut bacteria and support regular digestion.

Healthy Fats

Olive oil, avocado & nuts help calm the body and absorb nutrients.

Steady Protein

Keeps energy and blood sugar more balanced across the day.

How To Use This 7-Day Plan

- 1 Start with the grocery list.** Shop once, prep once, eat well all week.
- 2 Set aside one prep session** (Sunday works well) using the Meal Prep Instructions section.
- 3 Follow the daily plan loosely.** Swap meals between days if that fits your week better.
- 4 Use the food swaps page** anytime you want a simple upgrade to a favorite meal.
- 5 Repeat what works.** Consistency matters far more than perfection.

Your Grocery List

Organized by category so shopping is quick. Print this page and check items off as you go.

● Healthy Fats

- ☐ Extra virgin olive oil
- ☐ Avocados
- ☐ Walnuts
- ☐ Almonds
- ☐ Chia seeds
- ☐ Ground flaxseed
- ☐ Hemp seeds
- ☐ Almond butter

● Proteins

- ☐ Salmon fillets
- ☐ Cod or white fish
- ☐ Chicken thighs / breast
- ☐ Eggs
- ☐ Lentils (dry or canned)
- ☐ Chickpeas
- ☐ Plain Greek yogurt

● Vegetables

- ☐ Spinach & mixed greens
- ☐ Broccoli
- ☐ Sweet potatoes
- ☐ Cucumber
- ☐ Tomatoes
- ☐ Carrots
- ☐ Garlic & ginger
- ☐ Fresh parsley

● Fruits

- ☐ Blueberries
- ☐ Mixed berries
- ☐ Apples
- ☐ Bananas
- ☐ Lemons
- ☐ Oranges

● Whole Grains

- ☐ Rolled oats
- ☐ Quinoa
- ☐ Brown rice
- ☐ Whole grain bread

● Pantry Staples

- ☐ Turmeric
- ☐ Cinnamon
- ☐ Sea salt & black pepper
- ☐ Almond milk (unsweetened)
- ☐ Coconut milk
- ☐ Hummus
- ☐ Dark chocolate (85%+)

— 7-DAY MEAL PLAN

Your Daily Meals

Simple, realistic meals built on anti-inflammatory staples like olive oil, salmon, leafy greens, berries, turmeric, and lentils.

1

Day One

MONDAY

BREAKFAST

Turmeric Overnight Oats with Berries

Rollled oats, chia seeds, almond milk, a pinch of turmeric & cinnamon, topped with blueberries.

LUNCH

Mediterranean Quinoa Bowl

Quinoa, chickpeas, cucumber, tomato, olive oil & lemon dressing, fresh parsley.

DINNER

Baked Salmon with Roasted Vegetables

Salmon fillet, broccoli & sweet potato roasted in olive oil with garlic.

SNACK

Walnuts & Apple Slices

A small handful of walnuts with sliced apple.

2

Day Two

TUESDAY

BREAKFAST

Greek Yogurt with Flax & Berries

Plain Greek yogurt, ground flaxseed, and a handful of mixed berries.

LUNCH

Leftover Salmon & Greens Salad

Flaked leftover salmon over leafy greens with an olive oil-lemon dressing.

DINNER

Turmeric Lentil & Vegetable Soup

Lentils, carrots, garlic & ginger simmered with turmeric and vegetable broth.

SNACK

Carrot Sticks & Hummus

Fresh carrot sticks with a scoop of hummus.

— 7-DAY MEAL PLAN

Your Daily Meals

Leftovers are used intentionally to save time — cook once, enjoy twice.

3

Day Three

WEDNESDAY

BREAKFAST

Avocado Toast with Hemp Seeds

Mashed avocado on whole grain toast, hemp seeds, chili flakes & sea salt.

LUNCH

Leftover Lentil Soup & Side Salad

Reheated lentil soup with a simple side salad and olive oil dressing.

DINNER

Turmeric Chicken Stir-Fry

Chicken breast, mixed vegetables & turmeric over brown rice.

SNACK

Almonds & Orange

A small handful of almonds with an orange.

4

Day Four

THURSDAY

BREAKFAST

Chia Pudding with Berries

Chia seeds soaked in coconut milk overnight, topped with mixed berries.

LUNCH

Grilled Chicken & Quinoa Bowl

Grilled chicken, quinoa & roasted vegetables drizzled with olive oil.

DINNER

Baked Cod with Sautéed Spinach

Baked cod, garlic-sautéed spinach, and mashed sweet potato.

SNACK

Cucumber with Guacamole

Sliced cucumber with a scoop of fresh guacamole.

— 7-DAY MEAL PLAN

Your Daily Meals

Halfway there! Keep meals simple and adjust portions to your appetite.

5

Day Five

FRIDAY

BREAKFAST

Green Smoothie

Spinach, banana, mixed berries, ground flax & unsweetened almond milk.

LUNCH

Chickpea & Avocado Salad

Chickpeas, avocado & leafy greens with an olive oil-lemon dressing.

DINNER

Turmeric Lentil Curry

Lentils simmered in turmeric, garlic & ginger, served over brown rice.

SNACK

Walnuts & Dark Chocolate

A small handful of walnuts with a square or two of 85%+ dark chocolate.

6

Day Six

SATURDAY

BREAKFAST

Veggie & Herb Omelet

Eggs with spinach, tomato & herbs cooked in olive oil, side of berries.

LUNCH

Leftover Turmeric Lentil Curry

Reheated lentil curry from the night before.

DINNER

Grilled Salmon & Quinoa Tabbouleh

Grilled salmon with quinoa, parsley, cucumber, tomato & olive oil.

SNACK

Apple with Almond Butter

Sliced apple with a spoonful of almond butter.

— 7-DAY MEAL PLAN

Your Daily Meals

You made it to day seven — notice how you feel compared to day one.

7

Day Seven

SUNDAY

BREAKFAST

Overnight Oats with Walnuts & Cinnamon

Rolled oats, almond milk, chia seeds, chopped walnuts & a dash of cinnamon.

LUNCH

Big Rainbow Salad

Mixed greens, roasted vegetables, chickpeas & avocado with olive oil dressing.

DINNER

Baked Chicken Thighs with Root Vegetables

Chicken thighs & roasted root vegetables seasoned with turmeric & olive oil.

SNACK

Berries with Greek Yogurt

Mixed berries with a dollop of plain Greek yogurt.

A gentle reminder: these meals are a flexible starting point, not a strict rulebook. Swap ingredients based on what you have, what's in season, and what your body enjoys.

Your Weekly Check-In

Take a quiet moment before you start week two. There are no wrong answers here.

- ☐ How is my energy compared to day one?
- ☐ Which meals did I enjoy the most this week?
- ☐ What felt hard, and how can I make it easier next time?
- ☐ One thing I'll keep doing next week:

— PREP SMART

Your Sunday Prep Plan

One focused session sets up your whole week. Here's how to make it simple.

The 90-Minute Prep Session

- 1 **Cook your grains & legumes.** Batch-cook quinoa, brown rice & lentils together while you prep everything else.
- 2 **Roast a tray of vegetables.** Toss with olive oil, turmeric & garlic, then roast at once.
- 3 **Bake or grill your protein.** Prepare salmon, chicken & hard-boiled eggs for the week.
- 4 **Wash & chop produce.** Prep salad greens, carrot sticks & fruit so they're grab-and-go.
- 5 **Portion into containers.** Divide meals into balanced portions for easy weekday grabbing.

Storage Tips

- Store grains & proteins separately from sauces or dressings.
- Cooked meals keep well in the fridge for 3–4 days.
- Freeze soups & curries in individual portions for longer storage.
- Keep leafy greens dry and wrapped in a paper towel to stay fresh.
- Label containers with the day to use them in order.

Time-Saving Tips

- Use the same roasted vegetables across two different meals.
- Cook once, eat twice — plan intentional leftovers.
- Pre-mix a big batch of olive oil-lemon dressing for the week.
- Keep pre-washed greens on hand for instant salads.

Portion Balance Guide

- ½ plate — non-starchy vegetables (greens, broccoli, tomato, cucumber)
- ¼ plate — protein (salmon, chicken, lentils, eggs)
- ¼ plate — whole grains or starchy veg (quinoa, brown rice, sweet potato)
- + a thumb of healthy fat (olive oil, avocado, nuts)

EASY UPGRADES

Simple Anti-Inflammatory Swaps

Small changes add up. Start with just one or two swaps at a time — no need to overhaul everything at once.

INSTEAD OF		TRY
White bread	→	Whole grain or sourdough bread
Processed packaged snacks	→	Nuts & berries
Sugary cereal	→	Oatmeal with chia seeds
Soda	→	Sparkling water with lemon
Refined vegetable oil	→	Extra virgin olive oil
Creamy bottled dressing	→	Olive oil & lemon vinaigrette
Frequent red or processed meat	→	Salmon, lentils, or chicken
Refined white pasta	→	Whole grain or lentil pasta
Flavored coffee creamer	→	Unsweetened almond or coconut milk

Think of these as gentle nudges, not rules. Progress over perfection — even one swap a week adds up over time.

Why These Swaps Work

1

Steadier Energy

Whole foods digest more slowly, helping avoid blood sugar spikes and crashes.

2

More Fiber

Whole grains, nuts & berries feed beneficial gut bacteria naturally.

3

Less Processing

Fewer additives and refined ingredients means less everyday irritation.

— NICE TO HAVE

A Few Tools That Help

You don't need fancy equipment to start — but these basics make meal prep noticeably smoother.

Glass Meal Prep Containers

Keep portioned meals fresh, stack neatly in the fridge, and reheat safely.

A Food Scale

Helpful for learning natural portion sizes — not for obsessing over numbers.

A Blender

Makes smoothies, soups & dressings quick and easy on busy mornings.

A Good Knife

One sharp, comfortable knife makes chopping vegetables so much faster.

Use what you already have first. Add tools gradually as you find your own prep rhythm — this plan works with a basic kitchen too.

Building Your Kit Slowly

- 1 **Week one:** start with whatever containers and knife you already own — no purchases required.
- 2 **Week two:** if prepping feels good, add one or two glass containers for the meals you repeat most.
- 3 **Ongoing:** add a blender or food scale only once you notice you'd actually reach for it.

BEFORE YOU GO

You've Got This

You don't need to do this perfectly. Some days will go exactly to plan, and others won't — both are completely okay. What matters most is consistency: choosing whole, colorful foods more often than not, and giving your body the steady nourishment it's asking for.

Every meal is simply a new chance to feel a little more balanced, a little more energized, and a little more you. Come back to this guide anytime you need a reset.
